

Boats & RVs For Sale By Owners

How does it work?

It's easy, here's a brief overview:

Sellers

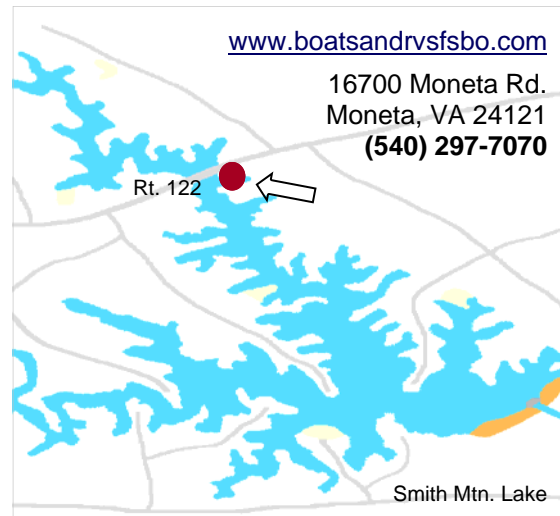

- \$0 commission if unsold
- Free appraisals
- Dealer pricing guide available
- Demo units for buyer prospects available
- No storage charge gimmicks
- Process all buyer paperwork (liens, too).
- Paved Lot
- Trailers for boats (rent or sale)
- Clean up and detailing available
- Residence on premises for extra security
- Large database of buyers prospects
- Best location w/highest % of boat/rv owners

Bring in your unit and park for free while it's for sale. If it sells, pay 10% of the selling price as our commission (\$600 min). All we require is that your unit is in proper operating condition.

Buyers

- Welcome to browse, never any sales pressure
- Wide variety, including some units off site
- If we don't have it, maybe we can find it (we maintain a huge database)
- Units are warranted by sellers to be in proper operating condition
- Test drive before you buy
- Have your mechanic inspect
- Dealer price guide available for you
- Titles, taxes, tags all processed in house
- Financing referrals
- Clean up and detailing available

Every sale is subject to a test drive by you. In addition, you can have your mechanic inspect the unit. (RVs actually require a state safety inspection between the time the unit is listed for sale with us and before the new owner takes possession.)

Three other *very* big pluses...

1. We've been here over 20 years so you know we get results.
2. We have an *excellent* reputation.
3. We only do consignments! With other dealers, they care about selling their new stuff. Next it's the units they took in on trade to sell the new products. Your consignment is a distant 3rd place with them.
